Other Businesses

Our businesses are supported by global organizations with leading capabilities in research, development, manufacturing and business services.

The Novartis Institutes for BioMedical Research (NIBR) ^[4], with more than 6,000 scientists and physicians worldwide, is the innovation engine of Novartis. NIBR focuses on discovering new drugs that can change the practice of medicine.

The Global Drug Development organization oversees the clinical development of new medicines that early research indicates may be safe and effective.

Novartis Operations is the manufacturing and business services backbone of the company. It includes:

- Novartis Technical Operations, our global manufacturing organization.
- Novartis Business Services consolidates support services across the company, helping drive efficiency, standardization and simplification.
